Aprašymas

The **TP-Link Omada EAP650-Wall AX3000** is a state-of-the-art **Wall-Plate Dual-Band Wi-Fi 6 Access Point** designed to deliver exceptional connectivity with a maximum data transfer rate of **3000 Mbit/s**. This advanced device operates on dual-band frequencies, providing **574 Mbit/s** on the **2.4 GHz band** and **2402 Mbit/s** on the **5 GHz band**. Such capabilities make it ideal for bandwidth-intensive applications, ensuring a seamless user experience in both residential and commercial environments.

Security is a top priority with the EAP650-Wall, which is equipped with advanced security algorithms including **SNMP**, **SSH**, **WPA-Enterprise**, and **WPA2-Enterprise**. These features create a secure network environment, safeguarding sensitive data from unauthorized access. The internal antenna design not only optimizes space but also maintains a sleek profile, making it a perfect fit for modern interiors.

Designed for easy wall placement, the EAP650-Wall operates on a **DC voltage range of 12 V** with a typical power consumption of **11.5 W**. It supports Ethernet LAN data rates of **10, 100, 1000 Mbit/s**, facilitating rapid network connections and efficient data handling. Certified by **CE** and **RoHS**, this access point meets stringent safety and environmental standards, making it a reliable choice for users seeking high-performance networking solutions.
