Aprašymas

The **Mikrotik XQ+31LC10D** is a high-performance **SFP** transceiver designed for fiber optic connections. This advanced device is part of the **QSFP28** interface family, ensuring compatibility with a wide range of networking equipment. With its robust construction and reliable performance, the XQ+31LC10D is an ideal choice for businesses looking to enhance their network infrastructure.

One of the standout features of the **XQ+31LC10D** is its impressive maximum data transfer rate of **100000 Mbit/s**. This capability allows for rapid data transmission, making it suitable for high-demand applications such as data centers and enterprise networks. The transceiver operates efficiently, with a power consumption of just **4.5 W**, ensuring that it meets modern energy efficiency standards.

Designed for versatility, the **Mikrotik XQ+31LC10D** is compatible with various networking setups, providing seamless integration into existing systems. Its single-unit packaging makes it easy to deploy, whether you are upgrading your current network or setting up a new one. This model is engineered to deliver consistent performance, making it a reliable choice for network administrators.

In summary, the **XQ+31LC10D** transceiver from **Mikrotik** is a top-tier solution for those seeking high-speed fiber optic connectivity. With its advanced specifications and efficient design, this product is well-suited for a range of applications, ensuring that your network operates at peak performance. Trust in the quality and reliability of Mikrotik to meet your networking needs.
