Aprašymas

The **R11eL-EC200A-EU** is a high-performance miniPCI-e card manufactured by **MikroTik**, designed to enhance connectivity options for various devices. This versatile card supports a wide range of international bands, including 1, 3, 5, 7, 8, 20, 28, 38, 40, and 41, making it suitable for diverse networking needs. Its compatibility with multiple cellular technologies ensures seamless integration into existing systems.

Operating across **2G**, **3G**, and **4G/LTE** networks, the R11eL-EC200A-EU is classified under **CAT4** standards, allowing for impressive download speeds of up to **150 Mb/s** and upload speeds of up to **50 Mb/s** under optimal network conditions. This capability makes it an ideal choice for users requiring reliable and fast mobile internet connectivity.

With its robust design and advanced technology, the R11eL-EC200A-EU is perfect for applications that demand high-speed data transfer and stable connections. Whether used in industrial settings, remote locations, or as part of a larger network infrastructure, this miniPCI-e card delivers exceptional performance and reliability.

In summary, the **R11eL-EC200A-EU** by **MikroTik** stands out as a powerful solution for enhancing connectivity in various environments. Its extensive support for international bands and impressive data rates make it a valuable addition to any network setup, ensuring users can stay connected wherever they are.
