Aprašymas

The **TP-Link TL-SG116P** is an advanced **16-port gigabit desktop switch** designed to enhance your network's performance. With each of the **16 RJ-45 Ethernet ports** supporting **gigabit Ethernet** (10/100/1000), this switch ensures robust and high-speed data transfer across your network. Its **unmanaged** nature makes it easy to set up and use, making it an ideal choice for both home and small office environments.

One of the standout features of the **TL-SG116P** is its **PoE+** capability on all ports, allowing you to power **PoE-enabled devices** such as IP cameras, VoIP phones, and wireless access points directly through the network cables. This eliminates the need for additional power supplies, simplifying your setup and reducing cable clutter. With a **switching capacity** of **32 Gbit/s** and a MAC address table that can hold up to **8000 entries**, the switch efficiently manages traffic without bottlenecks, ensuring smooth operation even under heavy loads.

Compliant with various networking standards including **IEEE 802.1Q**, **IEEE 802.1p**, **IEEE 802.3**, **IEEE 802.3ab**, and **IEEE 802.3u**, the **TP-Link TL-SG116P** is built for reliable integration into diverse network setups. Its wall-mountable design offers flexible installation options, making it suitable for various environments. Operating on a **DC input voltage** of **9 V**, this switch combines functionality with ease of use, making it a valuable addition to your networking equipment.
