Aprašymas

The **TP-Link Omada 4G+ Cat6 AX3000 Gigabit VPN Router** (model **ER706W-4G**) is engineered to deliver exceptional connectivity and security for both **home** and **business** environments. Utilizing advanced **dual-band Wi-Fi 6 (802.11ax)** technology, this router ensures high-speed internet access with a maximum WLAN data transfer rate of **2402 Mbit/s**. Operating efficiently on both **2.4 GHz** and **5 GHz** frequencies, it provides flexible network options to cater to diverse user needs.

Equipped with **Gigabit Ethernet** ports, the TP-Link router facilitates fast wired connections, significantly enhancing overall network performance. It is compatible with **4G LTE-TDD & LTE-FDD** standards, as well as **3G** standards including **HSDPA**, **HSUPA**, and **WCDMA**, ensuring broad mobile network compatibility. The comprehensive **NAT functionality** includes options such as one-to-one NAT, multi-net NAT, virtual server, port triggering, and NAT-DMZ, making it an ideal choice for managing large network setups securely.

Designed for versatility, the **TP-Link Omada ER706W-4G** can be conveniently placed on a desktop or mounted on a pole, all while featuring a sleek black color that fits seamlessly into any environment. The unit is equipped with multiple **LED indicators** for LAN, LTE, status, system, and WAN, providing clear, at-a-glance operational status. With its robust features and reliable performance, this router stands out as a superior choice for users seeking advanced connectivity solutions.
