Aprašymas

The **TP-Link PoE+ Injector** (model: **POE160S**) is an essential device for enhancing your network infrastructure. Designed by **TP-Link**, a leader in networking solutions, this injector features a **Gigabit Ethernet interface** that supports Ethernet LAN data rates of **10, 100, and 1000 Mbit/s**. Its compatibility with various **IEEE standards** including **802.3ab, 802.3af, 802.3at, 802.3i, and 802.3u** ensures versatility, making it suitable for a wide range of network devices.

This PoE+ injector is capable of delivering an output power of **30 W** and operates effectively over distances of up to **100 meters**, providing flexible installation options for your network setup. It is designed to work seamlessly with **CAT3, CAT4, CAT5, and CAT5e cabling technologies**, ensuring high-speed connectivity and efficient network performance. The inclusion of LED indicators for power status allows for easy monitoring of the device's operational state, enhancing user experience.

With its sleek black design, the **TP-Link PoE+ Injector** fits seamlessly into various environments, making it an aesthetically pleasing addition to your network setup. The device is powered by an **AC adapter** that supports input voltages from **100 to 240 V** and a frequency range of **50/60 Hz**. The package includes the injector, a power cord, an RJ45 cable, an installation guide, and wall-mounting kits, providing everything you need for a straightforward installation.
