Aprašymas

The **TP-Link XZ005-G6** is a high-performance **1-port XPON terminal** designed to deliver exceptional internet connectivity. With **GPON technology**, it supports downstream speeds of up to **2.5 Gb/s** and upstream speeds of **1.25 Gb/s**, ensuring a robust and reliable internet experience. The dual-mode support for **EPON** and **GPON** provides greater flexibility for fibre optic internet access, making it an ideal choice for various networking needs. The **2.5G LAN port** allows for rapid network sharing, while the device's energy-saving features ensure efficient operation.

Equipped with advanced management capabilities, the XZ005-G6 supports the **OMCI protocol** for centralized configuration and monitoring. Its **dynamic bandwidth allocation** and support for up to **256 GEM ports** enhance network performance, making it suitable for both residential and commercial applications. The device adheres to various **IEEE standards** and includes robust security features such as **AES encryption** and VLAN support, ensuring a secure and efficient networking environment. With its compact design and easy installation, the TP-Link XZ005-G6 is a reliable solution for modern networking demands.
