Aprašymas

The **TP-Link JetStream 24-Port Gigabit L2+ Managed Switch with 4 10GE SFP+ Slots** is engineered to cater to the demands of high-performance, high-bandwidth applications. This model features **24 Gigabit Ethernet ports** for fundamental switching, complemented by **four 10GE SFP+ slots** that significantly enhance network capacity and speed. Operating at a **Layer 2+/Layer 3 level**, it provides advanced functionalities for network segmentation and connection prioritization, making it an ideal choice for businesses looking to optimize their network infrastructure.

With a robust **MAC address table of 16,000 entries** and a remarkable **switching capacity of 128 Gbit/s**, the TP-Link SG3428X ensures efficient traffic management and superior data handling capabilities. This switch adheres to multiple networking standards, including **IEEE 802.3ab, IEEE 802.3ae, IEEE 802.3i, IEEE 802.3u, and IEEE 802.3z**, ensuring seamless compatibility with a diverse range of network devices. Its versatile management options are enhanced by an **RJ-45 and a Micro-USB console port**, allowing for flexible configuration and monitoring.

Designed for ease of installation, the TP-Link SG3428X features an **AC-in jack for power** and supports rack mounting with a **1U form factor**, making it suitable for standard server racks. This switch stands out in the market due to its ability to expand network connections efficiently in business environments, providing a reliable solution for organizations that require high-speed connectivity and robust performance. With TP-Link's commitment to quality and innovation, the SG3428X is a strategic investment for any growing network.
