Aprašymas

Enhance your security setup with a 5MP smart dual-light fixed-focal bullet network camera designed to deliver high-quality video surveillance. Equipped with a 1/2.7" CMOS sensor, this camera captures clear images with a resolution of 2592 x 1944, ensuring detailed footage even in low-light conditions. The camera features two types of illumination: infrared LEDs for clear night vision up to 30 meters and a warm supplemental LED for full-color night vision, providing versatility in various lighting environments.

The device supports the latest H.265 compression technology, which reduces bandwidth and storage requirements while maintaining high-quality video output. It also includes intelligent detection capabilities such as motion detection, perimeter protection, and people counting, which enhance its efficiency and effectiveness in monitoring and security.

With an IP67 weatherproof rating, the camera is built to withstand adverse weather conditions, making it suitable for both indoor and outdoor installations. Its simple installation process and compatibility with various third-party software through ONVIF protocols make it a flexible and convenient option for enhancing security systems in residential or commercial properties.
