Aprašymas

Constructed from durable aluminum, this junction box is designed to offer a secure and protective housing for electrical connections. It is compatible with select camera models, ensuring a seamless fit and integration for enhanced installation efficiency. The unit features a waterproof design, making it suitable for outdoor use where it effectively shields internal components from water and dust, adhering to the IP66 protection standard.

With dimensions of 134mm x 134mm x 55mm, the box provides ample space for cable management and connection, simplifying the installation process and maintaining a tidy setup. Its load-bearing capacity of up to 1.0 kg allows it to support attached devices securely.

The surface of the box is treated with a powder coating, which not only contributes to its sleek appearance but also adds an extra layer of corrosion resistance, extending the lifespan of the enclosure even in harsh environmental conditions. This junction box is an essential accessory for ensuring stable and secure installations of compatible surveillance systems.
