Aprašymas

The **Dahua AX15M AX1500 Wireless Router** is engineered to deliver high-speed wireless performance with its innovative **6th Gen Wireless Technology**. Capable of reaching speeds up to **1.5 Gbps** (300 Mbps on 2.4 GHz and 1201 Mbps on 5 GHz), this router ensures reliable and fast connections across multiple devices. Its backward compatibility with **IEEE 802.11 b/g/n/ac/ax** standards allows users to seamlessly integrate old and new devices into their home network.

Designed with advanced features like **Beamforming** for enhanced coverage, **OFDMA**, and **1024-QAM**, the AX1500 excels in providing high-capacity network performance, even in crowded environments. The **bi-directional MU-MIMO** technology further optimizes data streams, ensuring that multiple devices can be connected without compromising speed or reliability. With robust security options, including **WiFi Protected Access (WPA/WPA2/WPA3)**, guest access, and parental controls, this router meets the needs of both security-conscious users and families.

As part of Dahua's dedicated line of networking solutions, the **AX1500 Wireless Router** stands out not only for its technological prowess but also for its user-friendly features. Whether for home or small office use, this router is designed to support a fast and secure online experience, making it a valuable addition to any modern setup.
