Aprašymas

This junction box is designed to offer a secure and neat installation solution for compatible surveillance cameras. Crafted from aluminum alloy, it ensures durability and resistance to weather elements, making it suitable for both indoor and outdoor use. The unit comes in a black finish, which allows for a discreet and unobtrusive appearance when mounted.

With dimensions of 137 mm x 53.4 mm x 164.8 mm, this model provides ample space for organizing and protecting camera cables and connections, helping to maintain a clean setup. It supports a load capacity of up to 4.5 kg, which accommodates a range of camera models without compromising structural integrity.

The design includes waterproof features, which safeguard the electrical components of the camera system against moisture and dust, enhancing the longevity of the installation. It is compatible with specific models of cameras, ensuring a precise fit and seamless integration with existing security systems.

This junction box is an effective solution for managing and protecting camera installations, contributing to sustained performance and reliability of the security apparatus.
