Aprašymas

This network camera features a 4 MP resolution and a 2.8mm fixed lens, offering high-quality, panoramic video surveillance. Equipped with AcuSense technology, it enhances detection accuracy by distinguishing human and vehicle targets from other moving objects, minimizing false alarms. The camera supports a 2560 × 1440 resolution at 30 frames per second, ensuring clear and detailed images.

The device includes a built-in microphone and speaker, enabling two-way audio communication. It also features an onboard storage option with a microSD card slot that supports up to 256 GB, allowing for ample video storage directly on the device. For nighttime surveillance, it is equipped with an IR range of up to 30 meters, providing clear images in low-light conditions.

Designed for outdoor use, the camera is housed in a durable, weather-resistant casing with an IP67 rating, ensuring protection against dust and water. It also supports Power over Ethernet (PoE) for simplified installation by allowing both power and data to be carried over a single cable.
