Aprašymas

Equipped with a 4 MP high-resolution sensor, this fixed turret network camera delivers clear and detailed panoramic images, ensuring comprehensive coverage with minimal blind spots. The device features ColorVu technology, which provides vivid color rendering and superior video performance in low-light conditions. With a 2.8mm fixed lens, the camera offers a wide field of view, making it suitable for expansive area surveillance.

This model includes built-in supplemental lighting, which enhances image clarity in environments with poor lighting. It supports H.265+ video compression technology, which significantly reduces bandwidth and storage requirements while maintaining high-quality video output. The camera is designed with robust weatherproof capabilities, certified with an IP67 rating, ensuring reliable performance in adverse weather conditions.

For enhanced security measures, it features smart event detection capabilities and supports various advanced functionalities like motion detection, video tampering alarms, and safety exception analytics. The device also includes a built-in microphone and speaker, facilitating two-way audio communication, which can be useful in various interactive scenarios. This network camera is suitable for both indoor and outdoor installations, providing versatile security solutions for properties and facilities.
