Aprašymas

The **TP-Link JetStream 8-Port Gigabit Smart Switch** with **4-Port PoE+** is a sophisticated **managed switch** designed to enhance network performance in various business environments. Operating at **Layer 2/L2+**, this switch features eight **Gigabit Ethernet (10/100/1000)** ports, ensuring robust connectivity and efficient data handling. With a **MAC address table** supporting up to 8000 entries and a **switching capacity** of 16 Gbit/s, it effectively manages network traffic, making it an ideal choice for growing networks.

Equipped with **Power over Ethernet (PoE)** capabilities, the TP-Link SG2008P can power **PoE-enabled devices** such as wireless access points and surveillance cameras directly through the network cables. This feature simplifies installations and reduces cable clutter, providing a cleaner and more organized setup. The switch adheres to multiple **IEEE standards**, including **IEEE 802.1D**, **IEEE 802.1Q**, and **IEEE 802.1X**, which enhance its functionality and security, ensuring a reliable network infrastructure.

Designed for **rack mounting**, the TP-Link SG2008P is suitable for deployment in various business settings, facilitating scalable network configurations and efficient space utilization. Its robust feature set, including advanced traffic management and security protocols, makes it a valuable component for expanding network infrastructure. With TP-Link's reputation for quality and innovation, this switch stands out as a reliable solution for businesses looking to enhance their network capabilities.
