Aprašymas

The **TP-Link JetStream 8-Port 10GE SFP+ L2+ Managed Switch** is engineered to meet the demands of high-speed networking environments. With its eight **10GE SFP+ ports**, this switch provides exceptional high-bandwidth connectivity, making it ideal for efficient handling of large data transfers. Its managed switch capabilities enable operation on both **Layer 2** and **Layer 3**, offering enhanced network management and configuration flexibility that sets it apart from standard switches.

Equipped with a robust **MAC address table** that can accommodate up to **32,000 entries**, the TP-Link JetStream switch boasts an impressive **switching capacity of 160 Gbit/s**. This ensures smooth data processing and transmission across the network, allowing for seamless communication between devices. The switch supports a variety of networking standards, including **IEEE 802.1D** (Spanning Tree Protocol), **IEEE 802.1Q** (VLAN), and **IEEE 802.3ad** (Link Aggregation Control Protocol), enhancing its functionality and interoperability in diverse networking environments.

For management and setup, the switch features both **RJ-45** and **Micro-USB console ports**, providing versatile options for configuration. Power is supplied through a **DC-in jack**, and the unit is designed for **rack mounting**, making it a practical addition to any server room or data center. With its advanced capabilities and robust performance, the TP-Link JetStream 8-Port 10GE SFP+ Managed Switch stands out as a reliable solution for organizations seeking to enhance their network infrastructure.
