Aprašymas

HPE PROLIANT DL20 GEN11 - THE PERFECT SERVER FOR YOUR BUSINESS

The HPE ProLiant DL20 Gen11 server is an excellent solution for companies looking for performance and reliability in a compact form factor. With a rack unit height of just 1U, this server is ideal for limited spaces while offering powerful computing capabilities thanks to the Intel Xeon E-2436 processor with 6 cores and a clock speed of 2.9 GHz. With the ability to expand memory up to 128 GB and the option to install two 480 GB SSD drives, the HPE ProLiant DL20 Gen11 adapts to the needs of a growing business while providing reliability with a 3-year service warranty. Perfect for small and medium-sized enterprises looking to invest in modern IT infrastructure.

MODERN HPE PROLIANT DL20 GEN11 SERVER WITH ADVANCED OPTIONS

The HPE ProLiant DL20 Gen11 server is an excellent solution for businesses that require reliable and efficient IT infrastructure. With its powerful Intel C262 processor, the ability to connect four Gigabit Ethernet ports, and flexible RAID options, this server is ideal for handling a variety of applications and tasks. Offering a PCIe x16 slot and multiple USB 3.2 ports, it ensures ease of expansion and integration with existing systems. With support for the latest operating systems such as Microsoft Windows Server 2022 and Red Hat Enterprise Linux, the HPE ProLiant DL20 Gen11 stands out not only for its performance but also for its flexibility, adapting to the needs of dynamically evolving business environments.
