Aprašymas

The **UniFi SFP28 Fiber Module** is a high-performance networking solution designed to enhance your connectivity experience. With supported data rates of **25 / 10 / 1 Gbps**, this module ensures rapid data transfer and efficient network performance. Its compatibility with **SFP28, SFP+, and SFP interfaces** makes it a versatile choice for various networking setups, allowing seamless integration with existing infrastructure.

One of the standout features of the **UniFi SFP28 Fiber Module** is its **auto-optimisation of link speed and stability** when interconnecting UniFi devices. This technology not only simplifies the setup process but also enhances the overall reliability of your network, ensuring that you experience minimal downtime and maximum efficiency. Whether you're upgrading your current system or building a new one, this module provides a robust solution for your networking needs.

Designed for flexibility, the **UniFi SFP28 Fiber Module** supports cable lengths ranging from **0.15 to 30 m**, making it suitable for both short and long-distance connections. This adaptability, combined with the high data rates and advanced features, positions the UniFi SFP28 as a superior choice in the market. Trust in the quality and innovation of **UniFi** to elevate your networking capabilities.
