Aprašymas

The **OM4 multi-mode fibre** is a high-performance optical cable designed to meet the demanding requirements of modern data centers and enterprise networks. This advanced fibre technology offers superior bandwidth capabilities, making it ideal for high-speed data transmission over short distances. With its enhanced modal bandwidth, the OM4 fibre supports 40G and 100G Ethernet applications, ensuring that your network can handle the increasing data traffic with ease.

Equipped with **Duplex LC UPC connectors**, this fibre optic cable ensures a reliable and secure connection. The LC connector is known for its compact design and excellent performance, making it a popular choice in high-density environments. The precision-engineered connectors minimize signal loss and provide optimal performance, allowing for seamless integration into existing network infrastructures.

Available in various lengths ranging from **0.5 to 30 meters**, the OM4 multi-mode fibre offers flexibility for different installation needs. Whether you're upgrading your current network or setting up a new one, this product provides the versatility and performance required for today's high-speed applications. Trust in the quality and innovation of this fibre optic solution to enhance your connectivity and support your business's growth.
