Pagrindinės savybės

- ✓ 4x HDMI Ports enable multi-monitor productivity on up to 4 displays
- ✓ Single-slot Design fits in small chassis and leaves room for additional PCIe devices
- ✓ Passive Cooling keeps things quiet
- ✓ Auto-Extreme Technology uses automation to enhance reliability
- ✓ GPU Tweak II provides intuitive performance tweaking, thermal controls, and system monitoring

Aprašymas

Big Productivity in a Small Package

The ASUS GeForce® GT 730 is a passively-cooled single-slot graphics card that enables quiet multi-monitor productivity

COOLING

Passive Cooling

A passively-cooled design creates a quieter workspace.

ENGINEERING

4x HDMI Ports

Enable multi-monitor productivity with support for up to 4 external displays connected to the built-in HDMI ports.

Single-slot Design

A compact design increases compatibility with other PCIe peripherals and even allows multiple ASUS GT730s to be stacked in a single system.

Auto–Extreme Technology

Precision automated manufacturing

Auto-Extreme Technology is an automated manufacturing process that sets new standards in the industry by allowing all soldering to be completed in a single pass. This reduces thermal strain on components and avoids the use of harsh cleaning chemicals, resulting in less environmental impact, lower manufacturing power consumption, and a more reliable product overall.

SOFTWARE

GPU Tweak II

Monitor, tweak, and tune

The ASUS GPU Tweak II utility takes graphics card tuning to the next level. It allows you to tweak critical parameters including GPU core clocks, memory frequency, and voltage settings, with the option to monitor everything in real-time through a customizable on-screen display. Advanced fan control is also included along with many more features to help you get the most out of your graphics card.
