Aprašymas

Enhance your business network with the **Teltonika OTD500 5G Outdoor IP55 Router**. This router provides robust security features including a **firewall**, **VPN support** for OpenVPN, IPsec, PPTP, and L2TP, as well as support for DMZ and IP address filtering. With a sturdy plastic housing, this router is designed for durability, making it suitable for outdoor use. The **Teltonika OTD500** is equipped with internal antennas and supports **LTE Cat 19** for high-speed data transfer rates. Manage your network easily with web-based management and various management protocols like HTTP, HTTPS, and SNMP.

Powered by **MediaTek** and **DDR3 RAM**, the **Teltonika OTD500** delivers reliable performance with a processor frequency of 0.88 gigahertz. With **PoE support** and a power consumption of 9 W, this router ensures efficient power usage. The router features 2 Ethernet LAN ports, DHCP client and server, and supports various network protocols, making it a versatile choice for any business.

The **Teltonika OTD500** measures 110 x 235 x 49.3 mm, making it a compact and easy-to-install solution. With **LTE**, **5G**, and **3G data network support**, along with 4 SIM card slots, this router offers versatile connectivity options for your business needs. Whether you require port forwarding, NAT, or a secure VPN connection, the **Teltonika OTD500** is a reliable choice for your networking requirements.
