Pagrindinės savybės

- ✓ **4MP Super-High Definition:** The camera comes with 4MP-more than enough pixels to pick up some of the more discrete details
- ✓ **24h Full-Color:** Experience clear, vibrant 24-hour monitoring, even in total darkness
- ✓ **4G Mobile Networking:** Enjoy hassle-free installation and simple monitoring in places where the internet is not available
- ✓ **360° Monitoring:** Cover every corner and eliminate blind spots
- ✓ **Human & Vehicle Classification:** Distinguishes humans and vehicles from other objects, so you receive more accurate event notifications
- ✓ **Smart Detection:** Actively detects abnormal events like area intrusion and line-crossing, sending notifications to you instantly
- ✓ **Automatic Tracking:** Automatically tracks persons or vehicles of interest and provides seamless and longer video
- ✓ **Active Defense:** Warn potential intruders instantly with sound and light when abnormal events
- ✓ **Two-Way Audio:** With voice intercom support, carry two-way conversations while watching your feed from anywhere
- ✓ **H.265+:** Compresses the video size without sacrificing video quality, easing the network load and saving disk space

Aprašymas

Clarity and Colors, All in One

Experience clear, vibrant 24-hour monitoring, even in total darkness, with the VIGI Full-Color camera. Its 4MP resolution, large-aperture lens, high-sensitivity sensor, and supplemental lights deliver comprehensive, colorful surveillance.

Network Anywhere You Need It

No need to connect network cables. Just insert a Nano-SIM card, then your camera is ready to connect to a 4G LTE network. Enjoy hassle-free installation and simple monitoring in places where the internet is not available, such as farms, forests, and construction sites.

Powerful Pan Tilt

Cover every corner flexibly with VIGI's Pan Tilt camera. Customized patrol routes provide more intelligent and quick options to monitor key areas (up to 8 points for each route), reducing manual costs for adjusting pan & tilt angles repeatedly.

Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

Automatic Tracking

Automatically tracks persons or vehicles of interest and provides seamless and longer video. This way, you will better understand what's happening and take action without wasting time on irrelevant footage.

Smart Detection for Efficient Monitoring

By setting the detection rules in advance, VIGI AI-powered cameras can accurately capture various abnormal events. This will greatly reduce false alarms and cover your specified monitoring needs in different scenarios.

Active Defense

Warn potential intruders off instantly with sound and light to pro-actively protect your property, even while away from the scene.

Two-Way Audio

With voice intercom support, carry two-way conversations while watching your feed from anywhere.

Smart Video Coding by H.265+

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality.

Remote Management

Take full control over your security anytime and anywhere on the VIGI app or client.

One system. Full security.

Run your business with peace of mind.

The VIGI professional surveillance system by TP-Link is dedicated to protecting the business you've worked hard to build — whenever, wherever. Our outstanding functions, reliable quality guarantees, and simplified installation work together to ensure your business stays safe and sound.
