Aprašymas

The **Hikvision DS-3E0318P-E/M(C)** is a state-of-the-art **16 Port Fast Ethernet Unmanaged POE Switch** designed to meet the demands of modern networking environments. This switch features **Intelligent PoE Management**, which ensures that when the power supply exceeds the limit, the PoE ports automatically manage the power distribution, thereby extending the switch's lifespan. With the capability for **up to 300 meters** of long-range PoE transmission, it allows for flexible installation options without compromising performance.

Engineered with a **4/8-Core Adaptive Power Supply**, the DS-3E0318P-E/M(C) minimizes power loss on cables, making it an efficient choice for powering multiple devices. Additionally, it is equipped with **6 KV Surge Protection**, enhancing its reliability in harsh environments by safeguarding against sudden lightning surges. This switch is specifically designed for video transmission, featuring a **VIP port** that prioritizes important data traffic during network congestion, ensuring seamless operation even under heavy loads.
