## Aprašymas

The **Hikvision DS-3E1326P-EI(B)** is a state-of-the-art **24 Port Fast Ethernet Smart PoE Switch** designed to meet the demanding needs of modern network environments. With **24 × 10/100M PoE ports** and **2 × Gigabit combo ports**, this switch provides a robust solution for powering and connecting multiple devices simultaneously. The total **PoE power budget of 370 W** ensures that all connected devices receive adequate power, making it ideal for surveillance systems and other PoE-enabled applications.

Equipped with advanced features, the **Hikvision DS-3E1326P-EI(B)** supports **802.1Q VLAN**, allowing for efficient traffic management and enhanced network security. Its **PoE watchdog** functionality automatically detects and restarts non-responsive cameras, ensuring uninterrupted surveillance. Additionally, the switch includes **STP/RSTP loop prevention** and **cable detection** capabilities to help locate faults, providing a reliable and user-friendly experience.

One of the standout features of this switch is its ability to support **up to 300 m Long Range PoE Transmission**, which significantly extends the reach of your network without compromising performance. Coupled with **6 kV Surge Protection**, the **Hikvision DS-3E1326P-EI(B)** is engineered to withstand electrical surges, making it a durable choice for any installation.
