Aprašymas

The **Hikvision DS-2CD1743G2-LIZU** is a state-of-the-art **4 MP Dual Light MD 2.0 Varifocal Dome Network Camera** designed for high-quality imaging and advanced surveillance applications. With a resolution of **4 MP**, this camera ensures crystal-clear images, making it ideal for both human and vehicle detection. The integration of **Smart Hybrid Light** technology allows for exceptional performance in low-light conditions, providing long-range visibility that outperforms many competitors in the market.

This model features **120 dB true WDR technology**, which significantly enhances imaging quality against strong backlighting, ensuring that critical details are captured in challenging lighting environments. Additionally, the camera supports on-board storage of up to **512 GB** via an SD card slot, allowing for extensive video recording without the need for external storage solutions. The **H.265+ compression technology** further optimizes storage efficiency while maintaining high video quality.

Equipped with a **2.8 to 12 mm motorized varifocal lens**, the Hikvision DS-2CD1743G2-LIZU offers flexible installation and monitoring options, making it suitable for various surveillance scenarios. Its robust design features **IP67 water and dust resistance** and **IK08 vandal-proof rating**, ensuring durability and reliability in outdoor environments. With a built-in microphone for real-time audio security, this camera is a comprehensive solution for modern surveillance needs.
