Aprašymas

The **Ubiquiti U-PoE+ PoE+ Adapter (30W)** is a high-performance power over Ethernet solution designed to deliver reliable power and data connectivity. With a robust output voltage of **48V DC @ 0.65A**, this adapter is ideal for powering devices such as IP cameras, wireless access points, and VoIP phones. Its **Gigabit LAN port** ensures high-speed data transmission, making it a perfect choice for modern network environments.

Engineered for efficiency, the U-PoE+ adapter boasts an impressive **87% efficiency rating**, minimizing energy waste while providing stable power. The device features advanced surge protection capabilities, including **1500A max surge discharge** for power and **36A peak pulse current** for data, safeguarding your equipment against voltage spikes. Additionally, it operates effectively in a wide temperature range of **0 to 40°C (32 to 104°F)**, making it suitable for various deployment scenarios.

Manufactured by **Ubiquiti**, a leader in networking technology, the U-PoE+ adapter is built to meet rigorous standards with certifications including **CE, FCC, IC, and UL**. Its compact design, measuring **93 x 62 x 35 mm**, allows for easy installation in tight spaces, while its durable construction ensures long-lasting performance. This adapter is a reliable choice for anyone looking to enhance their network infrastructure with a dependable PoE solution.
