Aprašymas

The **WDAP-C5100BE** is a cutting-edge **ceiling-mount wireless access point** from **PLANET Technology**, designed to leverage the latest **Wi-Fi 7 (802.11be)** technology. With support for both the **2.4 GHz** and **5 GHz** frequency bands, this access point delivers impressive speeds of up to **5100 Mbps**, making it ideal for high-density environments and demanding applications. The device features a **10/100/1000/2500T WAN/PoE interface** and a **10/100/1000T LAN port**, ensuring seamless connectivity and power delivery through **IEEE 802.3at PoE+**.

Equipped with **five internal 3dBi antennas** (two for 2.4G and three for 5G), the WDAP-C5100BE provides robust wireless coverage and supports advanced features such as **seamless roaming** and **beamforming**. Its **operating temperature range** of **-10 to 55°C** ensures reliable performance in various environments, while the **WPA3** security protocol enhances network protection. This access point is also **TAA compliant**, making it suitable for government and enterprise applications.

With its **auto channel selection** and **Wi-Fi Multimedia (WMM)** support, the WDAP-C5100BE optimizes network performance for multiple clients, accommodating up to **256 devices**. The device's management capabilities, including remote management through **PLANET DDNS** and **central management** options, make it a versatile choice for network administrators seeking to enhance their wireless infrastructure.
