Aprašymas

UNMATCHED SOUND QUALITY AND AI FUNCTIONALITY

The Ubiquiti AI Horn Speaker delivers an impressive 120 dB output, ensuring clear and powerful audio in any environment. Designed with advanced AI alert functionality, this speaker can be integrated into security systems, providing real-time notifications and alerts. Its ability to produce high-quality sound makes it ideal for both public announcements and security alerts, enhancing communication in various settings.

DURABLE DESIGN FOR ALL WEATHER CONDITIONS

Constructed from UV-stabilized polycarbonate and aluminum alloy, the AI Horn Speaker is built to withstand harsh weather conditions. With an IP66 weatherproof rating, it can operate effectively in extreme temperatures ranging from -40 to 60° C (-40 to 140° F) and humidity levels of 10 to 90% noncondensing. This durability ensures reliable performance, making it suitable for outdoor installations in diverse environments.

VERSATILE MOUNTING OPTIONS FOR EASY INSTALLATION

The Ubiquiti AI Horn Speaker features an articulating mount that allows for flexible installation on walls, poles, or corners. The included mounting hardware accommodates pole diameters from 1 to 2.5 inches (25 to 63.5 mm), ensuring a secure fit in various locations. Weighing only 1.55 kg (3.4 lb), the speaker is lightweight yet sturdy, making it easy to install without compromising on stability or sound quality.
