Aprašymas

UNMATCHED PERFORMANCE WITH WIFI 7 TECHNOLOGY

The Ubiquiti AirWire U-AirWire is engineered for high-performance connectivity, leveraging the latest WiFi 7 technology. With support for simultaneous full-duplex links, this client adapter delivers ultra-low latency and extended range, making it ideal for demanding applications. Experience true multi-gigabit real-world speeds, with capabilities reaching up to 5.8 Gbps on the 6 GHz band and 4.3 Gbps on the 5 GHz band. This advanced performance ensures seamless streaming, gaming, and data transfer, catering to both home and professional environments.

ROBUST FEATURES FOR ENHANCED CONNECTIVITY

Equipped with four spatial streams and advanced MU-MIMO technology, the U-AirWire optimizes wireless performance by allowing multiple devices to connect simultaneously without compromising speed. Its wireless meshing capability enhances network coverage, while real-time spectral analysis ensures optimal channel selection for interference-free operation. The device supports a wide range of channel bandwidths, accommodating various networking needs and ensuring flexibility in deployment. With a maximum power consumption of 18W, it balances performance and efficiency.

DURABLE DESIGN AND EASY MANAGEMENT

The U-AirWire features a sturdy polycarbonate enclosure, designed to withstand diverse environmental conditions with an operating temperature range of -10 to 40°C (14 to 104°F) and humidity levels of 5 to 95% non-condensing. Weighing just 544 g (1.2 lb), it is lightweight yet robust, making installation straightforward. The device includes a 0.96" status display for real-time monitoring and USB-C management for easy configuration. Additionally, it is NDAA compliant and certified by CE, FCC, and IC, ensuring reliability and adherence to regulatory standards.

Techninė specifikacija

Matmenys ir svoris

Matmenys (I × P × A)	7,00cm × 12,00cm × 12,00cm
Svoris	1,00kg
