Aprašymas

The **Hikvision 1U 380 Mounting Bracket** is an essential accessory designed for the secure installation of **Hikvision digital video recorders** within a standard **19-inch Rack**. This product, part of the **DS-76XXNI-SE series**, includes two brackets that ensure a stable and reliable mounting solution for your equipment. The brackets are specifically tailored to accommodate devices with a width of **380 mm** and a height of **1U**, making them ideal for optimizing space in your server room or data center.

Constructed with durability in mind, these mounting brackets provide a robust support system that enhances the overall efficiency of your surveillance setup. The **Hikvision** brand is synonymous with quality and innovation in the security industry, ensuring that this mounting solution not only meets but exceeds your expectations for performance and reliability.

With the **Hikvision 1U 380 Mounting Bracket**, you benefit from a straightforward installation process, allowing for quick and hassle-free setup. This product is a perfect choice for those looking to maintain an organized and professional appearance in their equipment racks while ensuring that their **Hikvision recorders** are securely mounted and easily accessible.
