Aprašymas

COMPACT AND POWERFUL 4K SURVEILLANCE SOLUTION

The Ubiquiti G6 Mini Dome is an incredibly compact surveillance camera that packs a punch with its 4K resolution and advanced features. Equipped with a 1/1.8" 8MP image sensor, this camera ensures crystal-clear video quality, making it ideal for monitoring high-traffic indoor areas. Its sleek design allows for discreet installation, while the robust performance guarantees reliable surveillance without compromising on aesthetics.

ADVANCED AI CAPABILITIES FOR SMART MONITORING

This camera is powered by a Multi-TOPS AI Engine, enabling enhanced smart detections for people, vehicles, and animals. With features like face and license plate recognition, the G6 Mini Dome offers sophisticated monitoring capabilities that adapt to various environments. This intelligent technology not only improves security but also streamlines the monitoring process, allowing for quick identification and response to potential threats.

EXCEPTIONAL NIGHT VISION AND TWO-WAY AUDIO

The Ubiquiti G6 Mini Dome excels in low-light conditions with its built-in IR night vision, providing visibility up to 20 meters (65 feet). This feature ensures that surveillance continues seamlessly, even in complete darkness. Additionally, the two-way audio capability allows for real-time communication, making it easier to interact with individuals in the monitored area, enhancing both security and user experience.

DURABLE DESIGN AND VERSATILE MOUNTING OPTIONS

Constructed from aluminum alloy and polycarbonate, the G6 Mini Dome is designed to withstand various environmental conditions, boasting an IK08 tamper resistance rating. This durability makes it suitable for a range of indoor applications. The camera comes with multiple mounting options, including ceiling and wall mounts, ensuring flexibility in installation. Its compatibility with the UniFi Application Suite allows for easy integration into existing security systems.
