Aprašymas

ADVANCED IMAGING TECHNOLOGY FOR UNMATCHED CLARITY

The Hikvision 4 MP 25X Powered by DarkFighter IR Acusense Network Speed Dome utilizes cutting-edge HIK AI-ISP technology, ensuring exceptional noise reduction and clarity in various lighting conditions. With a 1/2.8" progressive scan CMOS sensor and a maximum resolution of 2560 × 1440, this camera delivers high-quality imaging that captures every detail. The self-learning focus technology enhances focus speed, maintaining sharp images even in dynamic environments, making it ideal for security applications where clarity is paramount.

VERSATILE ZOOM CAPABILITIES FOR COMPREHENSIVE COVERAGE

Equipped with a powerful 25× optical zoom and 16× digital zoom, this speed dome camera allows for detailed close-up views over expansive areas. The focal length ranges from 4.8 mm to 120 mm, providing flexibility in monitoring diverse environments. With a horizontal field of view ranging from 55° to 2.4°, users can easily adjust the camera to cover wide areas or focus on specific targets, ensuring comprehensive surveillance without compromising on detail.

INTELLIGENT TARGET DETECTION AND FACE CAPTURE FEATURES

The Hikvision speed dome camera is designed with advanced AI capabilities, focusing on human and vehicle target classification through deep learning algorithms. It supports face capture, allowing for the simultaneous detection of up to five faces, enhancing security measures in high-traffic areas. This intelligent detection system not only improves monitoring efficiency but also aids in identifying potential threats, making it a valuable tool for security personnel.

ROBUST NIGHT VISION AND ALARM FEATURES FOR ENHANCED SECURITY

With an impressive IR distance of up to 100 meters, this camera ensures expansive night vision capabilities, allowing for effective surveillance even in complete darkness. The active strobe light and audio alarm serve as deterrents against intruders, providing an additional layer of security. Coupled with features like motion detection and various smart event triggers, this camera is equipped to respond proactively to potential security breaches.

DURABLE DESIGN AND COMPREHENSIVE CONNECTIVITY OPTIONS

Built to withstand harsh environments, the Hikvision speed dome camera features an IP67 rating, ensuring protection against dust and water. It operates efficiently in temperatures ranging from -30 °C to 65 °C (-22 °F to 149 °F), making it suitable for diverse outdoor applications. The camera supports multiple network protocols and can connect seamlessly with Hikvision network speakers and microphones, enhancing its functionality for audio surveillance and communication.
