Aprašymas

The Lindy HDMI 1.3 to VGA converter converts signals from an HDMI equipped source into an analogue VGA signal. It supports resolutions up to 1080p and 1920x1200 for PC VGA displays. This allows the connection of modern HDMI capable devices, such as PC's, notebooks and ultrabooks, to an older VGA display or projector.

The converter can also be used to add another display to extend the available desktop workspace. It is also ideally suited for travelling due to its compact, lightweight form factor and convenient plug and play installation.
