Aprašymas

A compact power-pack!

Advanced technology for fast charging automatically detects and delivers voltage and current based on your connected devices. Features the user-friendly USB Type-C® reversible plug for trouble-free connection in any direction. Ideal for travel, home or office.

How about a combination?

The IB-PS101-PD has an additional USB Type-A port with a combined total output of 90 Watts, that means you can charge a 15- or 16-inch computer alone, or a 13-inch notebook and a smartphone simultaneously, both at full speed.

Integrated Power Delivery cable

At first, an integrated USB Type-C® cable may seem a disadvantage, but on closer inspection a clear benefit shows, because it can always transfer the supported Power Delivery wattage - without any exception!
