Pagrindinės savybės

- ✓ **DATA AT HAND:** With this DockingStation for a 2.5" or 3.5" SATA I/II/III drive, you can easily access your hard drives and always have access to your archived data
- ✓ **CONVENIENTLY CONNECTED:** As a host connection, the DockingStation relies on the still most widely used USB Type-A connection. With USB 3.2 Gen 1, transfer rates of up to 5 Gbit/s can be achieved
- ✓ **STATUS LED:** With a glance at the status LED, you can see whether the power supply is active and whether the data on your hard disk is currently being accessed. This way you always have full control
- ✓ **PLUG & PLAY:** The DockingStation supports Plug & Play and HotSwap. This allows you to work without installing drivers and to easily change hard disks even during an active data connection
- ✓ **HIGH COMPATIBILITY:** Regardless of which system you prefer, the IB-1121-U3 is compatible with Windows, macOS and Chrome OS operating systems and requires no drivers

Aprašymas

Simply dock

The double bay of the enclosure quickly and easily accepts a 2.5" or 3.5" SATA I/II/III SSD or HDD and can be used immediately as an external storage medium. Due to the simple insertion and re-insertion of the hard disks, the change is child's play and does not require any tools.

Fast data exchange

The fast data transfer from the computer to a hard disk or vice versa succeeds with up to 5 Gbit/s via the USB 3.2 Gen 1 interface. This reduces waiting times for read and write operations. The DockingStation is connected to the host computer via a USB Type-A plug.

High compatibility

No matter which system you use, the IB-1121-U3 is compatible with Windows®, macOS® and Chrome OS™. Thanks to Plug & Play, none of the operating systems require additional driver installation. With its matte black design, the device also blends perfectly into the work environment.

Techninė specifikacija

Specifications	
Sandėlio grupė	Notebook Docks [+118][-14]
Hard drive	
Storage media type	HDD
Storage drive interface	Serial ATA, Serial ATA II, Serial ATA III
Storage drive sizes supported	2.5,3.5"
