Create visuals that match your mood. Whether you're hosting, unwinding or relaxing, our AI-powered wallpaper creates stunning one-of-a-kind visuals that transform your space.

Extreme detail on our brightest TV

Neo Quantum HDR 8K Pro

Introducing our brightest TV. Watch everything in incredible depth and super fine detail, with more vibrant colours and stunning contrast. Whether it's uncovering detail in a dark nature scene or a sun-scorched mountain range, every detail is captured and brought to life, as the director intended.

Ultra-smooth motion

AI Motion Enhancer

Whether you're watching a fast-paced action movie or the big match, experience it with incredible clarity. AI recognises text and objects on screen and smoothes out the motion. It takes live sports to another level.

Add colour to every scene

Colour Booster Pro

Our smart AI Colour Booster intelligently adjusts and enhances colour levels scene-by-scene. From the darkest night shots to the brightest landscapes, enjoy consistently high and accurate levels of colour for a bolder viewing experience whatever you're watching.

Like seeing it in person

Real Depth Enhancer Pro

Real Depth Enhancer Pro detects areas where a person's eye would typically focus and precisely enhances the depth and foreground contrast. So when you are watching a nature documentary, it enhances an elephant's wrinkles while leaving the background as it is - just like a person's eyes would.

Four times the pixels of a 4K TV

True 8K Resolution

Imagine picking out faces in a crowded stadium, or blades of grass in a nature documentary. True 8K resolution has 33 million pixels - 4x as many pixels as 4K and 16x as many as Full HD. It creates a new level of sharpness and detail, so you can see enhanced colours and textures in your content.

Sound, like the movies

Dolby Atmos®

Bring the sound of cinema into your home. Imagine those big movie moments, sounding bigger. Immerse yourself in your favourite movies and must-see releases with sound that pulls you in to the centre of the action.

Dynamic 8-speaker sound that follows the action

Object Tracking Sound+

Immersive TV sound that follows the action on screen with 8-speaker sound that moves with the action. Hear the rise of the crowd as your sports team attacks, feel superheroes swoop into scenes, and get drawn into sound that peaks with every action you see.

Samsung TVs and soundbars, the perfect harmony

Samsung Q-Symphony

Boost your viewing experience with integrated sound from your TV and soundbar. Why let a soundbar or TV work solo when you can amp up your entertainment with even more powerful speakers that work together seamlessly, for a fully immersive sound experience.
