## Pagrindinės savybės

✓ Not included in the box: 25W Travel Adapter

## Aprašymas

### Charge quickly with Fast Charging

Get the charge you need quickly, thanks to up to 15W of Fast Charging support. This boost of battery is compatible with USB PD and Adaptive Fast Charging travel adapters for an easy charge -me-up.

### One charger, two devices

Simultaneously power up your favourite pair of devices to enjoy together — whether that's your phone and Galaxy Watch, or your Galaxy Watch and earbuds.

### Power your device safely

The Wireless Charger Pad has a built-in cooling system with fan and charges your phone even faster with less power consumption than competing products.

### Protect your Galaxy device with safe charge

The 15W charger is the best choice to keep your Galaxy device safe from high, temperatures, humidity and from overheating when charging. It also automatically detects when objects interfere during the charge and is tested to ensure Galaxy device compatibility.

Designed to fit your space

Simply place the Wireless Charger where you want it. With a slim, smooth and compact design, it fits even in the smallest of spaces, so it's easy to access when your phone or earbuds need a little extra juice.

Colours inform charging status

The LED light intuitively tells you the charging status of your device with different colours: Red for charging, flashing red for charging error and green for fully charged. When its time for lights out, you can dim it to not disturb your beauty sleep.
