Aprašymas

The Club 3D HDMI™ 2.0 4K60Hz UHD 360° Rotary Cable can be twisted or turned to virtually any position. The Rotator connectors feature a center ball joint design that enables a 360 degree rotation and bending. The CAC-1360 design ensures signal integrity in any position and its flexibility makes it ideal for installations in tight/narrow spaces where standard connectors are hard to fit without having to bend the cable at sharp angles.

It fully supports the HDMI™ 2.0 with Ethernet specification, ensuring that video up to 4K UHD, 4096x2160p at 60Hz is supported, as well as audio and data streams.
