Pagrindinės savybės

- ✓ 3 700 liumenai ryškių spalvų, aiškių formų bei įtraukiančiam vaizdui užtikrinti: Pasirūpinkite, kad kiekviena detalė būtų visiškai aiški su 3 700 liumenų HD raiška, iki 300 colių siekiančiu ekranu, užtikrinančiu aiškių formų ir ryškių spalvų vaizdus net gerai apšviestose vietose.
- ✓ Nešiojamas mažo atstumo dizainas: Lengva konstrukcija ir mažo atstumo santykis 0,6:1 reiškia didelius, aiškius vaizdus nedideliu atstumu bei lankstumą, kurį galima naudoti bet kurioje aplinkoje.
- ✓ Lankstus prijungiamumas su standartiniu ethernetu ir pasirinktinu belaidžiu ryšiu: Jį sudaro standartinis tinklo prievadas, pasirenkamas belaidis ryšys su „ELPAP11“ ir du HDMI prievadais, o „Epson“ programėlė „iProjection“ leidžia prisijungti beveik prie bet kurio įrenginio.
- ✓ Perskirtasis ekranas: Naudodami projektoriaus perskirtojo ekrano funkciją, viename ekrane matysite iki 4 įvesčių.
- ✓ Reikalaujantis mažai priežiūros: Iki 10 000 valandų lempos veikimo trukmė (veikiant ekonominiu režimu).
- ✓ 5 metų garantija: Aukštas patikimumas ir didelė ramybė.

Aprašymas

Ideal for education and business environments, the EB-W56S delivers a sharp, bright (3,700 lumens) display up to 300", using 3LCD technology to ensure consistently vibrant images. Its compact short-throw design offers portability and versatile placement options. And the 5 year warranty and long-life lamp provides both reliability and peace of mind.

Large, bright and clear display

Even in the most brightly lit classroom or office the EB-W56S creates an engaging display. Its 3,700 lumens brightness, HD-ready resolution and display size of up to 300" ensures that every detail - whether images, text or video - is clear and vivid.

Enhanced image technology

The combination of 3LCD technology and Colour Light Output (CLO) helps increase engagement by bringing lessons and presentations to life. That engagement is further enhanced by Epson's Scene Adaptive Gamma Correction, which dynamically optimises image contrast based on the specific content being displayed. Together, these technologies make the EB-W56S ideal for displaying any content - whether documents, multimedia or educational videos - in crystal-clear detail.

Lightweight and portable

Weighing just 3.1kg, the EB-W56S is easily transportable, making it perfect for use across multiple locations - and with an optional carry case transporting the projector is both safe and convenient, enabling it to be quickly installed wherever required. This portability makes it an excellent choice for anyone looking for a solution which can be easily adapted to a variety of spaces.

A large display, even in small spaces

With a short-throw design (a throw ratio of 0.6:1) that lets you project a large (up to 300") image from close range, the EB-W56S is perfect for environments with limited space - minimising shadows and distractions so you can focus on delivering powerful and engaging content.

Advanced connectivity for outstanding versatility

Unlock the potential of multiple connection options - including a standard network port, optional Wi-Fi with ELPAP11, and dual HDMI inputs. This projector makes it easy for you to connect multiple devices, while Epson's free iProjection app offers connectivity to almost any source device. Split-screen functionality enables the display of up to 4 inputs simultaneously, to enable dynamic, interactive learning experiences.

Affordable, durable quality

A highly affordable solution that doesn't compromise on quality, this lamp-based projector delivers outstanding performance, flexibility, and durability, backed by a 5-year warranty. Long lamp life of up to 10,000 hours (in Eco mode) means minimal maintenance, making the EB-W56S ideal for modern educational settings and businesses alike.

Techninė specifikacija

Projector	
Projector brightness	3700 ANSI lumens
Projection technology	3LCD
Projector native resolution	WXGA (1280x800)
Light source	
Light source type	Laser
Service life of light source (economic mode)	10000 h
