Pagrindinės savybės

- ✓ Universal connectivity: compatible with USB-C, USB-A and Thunderbolt ports
- ✓ Powerful and versatile video adapter that can connect up to two monitors simultaneously
- ✓ The adapter supports resolutions up to 2x 4K/60 Hz, regardless of the performance of your laptop's graphics card
- ✓ Support for two DisplayPort ports
- ✓ Metal surface for better heat dissipation
- ✓ Two external monitors are also supported on the Apple M1, M2 and M3 platforms

Aprašymas

Extend your desktop with two external DisplayPort monitors. The adapter supports 2x 4K resolution 4096×2160@60Hz including audio signal.

The adapter is suitable for designers, graphic artists and other users who work with multiple screens simultaneously. Its performance allows you to run even the most demanding applications on one or two independent displays, making it ideal for editing 4K/60Hz videos or other Ultra HD tasks

With “Expand” and “Mirror” modes, you can work with applications on two monitors (e.g. large spreadsheets), work on one monitor and search for information on the Internet on the other, compare several documents at once without having to constantly jump between open windows, view panoramic images on two monitors, view charts and current data simultaneously, view several presentations at once without having to have another computer, etc.

A short, one-time installation of the DisplayLink driver is required before using the adapter.

Techninė specifikacija

Specifications	
Sandėlio grupė	> Kabel und Adapter > Displayport Kabel und Adapter [+1987][-131]
Features	
Cable length	0.27 m
Connector 1	USB Type-A/USB Type-C
