Pagrindinės savybės

- ✓ 16*1Gbps PoE ports+2*1Gbps SFP ports+2*1Gbps RJ45 ports+1*Console port
- ✓ Support IEEE802.3, IEEE802.3x, IEEE802.3u, IEEE802.3ab, and IEEE802.3z network protocols
- ✓ Comply with IEEE802.3at (30W) and IEEE802.3af (15.4W) power supply standards
- ✓ Ethernet Ports support 10/100/1000Mbps self-adaptive
- ✓ Support PoE management and PoE watchdog
- ✓ The panel indicator LEDs will monitor the working status and assist in fault analysis
- ✓ Support 802.1x port authentication, AAA authentication, TACACS+authentication
- ✓ Support WEB, TELNET, CLI, SSH, SNMP, RMON management
- ✓ 5 Year Warranty

Aprašymas

The device features 16 1000Mbps Power over Ethernet (PoE) ports, 2 1000Mbps RJ45 ports, 2 1000Mbps Small Form-factor Pluggable (SFP) ports, and 1 console port.

It supports IEEE802.3, IEEE802.3x, IEEE802.3u, IEEE802.3ab, and IEEE802.3z network protocols. It is compatible with IEEE802.3at (30W) and IEEE802.3af (15.4W) power supply standards.

The RJ45 port supports 10/100/1000Mbps rate adaptation. It features PoE management and PoE watchdog.

Panel indicator lights monitor the working status and assist in fault analysis.

It supports 1U rack-mounted installation and 802.1x port authentication, AAA authentication, TACACS+ authentication, and WEB, TELNET, CLI, SSH,

SNMP, RMON management.
