Anthra Line USB 2.0 cables are premium connections that feature double shielded construction with tinned copper conductors for performance and corrosion resistance. High-quality gold-plated contacts and connectors maintain signal integrity and reliability.

Data transfer speeds up to 480Mbps are supported for the quick and effortless transfer of large data volumes.

USB Type C features a reversible connector, so no matter which orientation the cable is inserted, a connection will always be found. This connector allows a fully bi-directional cable with automatic host and device negotiation.
