USB Type C is the new norm for charging all devices. USB-C chargers are smarter, efficient, and truly universal as they work across all brands. You can top up phones & other devices faster without using any converter/adaptor conveniently as it comes with reversible connector.

CoreParts offer USB-C chargers in all sizes from 12Watt to 100Watt PD3.0 in both EU wall and desktop version.

USB Power Delivery, or USB PD, is a charging protocol that uses high speed USB-C connectors and cables. Smartphones, tablets, and laptops that are Power Delivery-enabled allow safe, faster charging and more power for larger devices, without the need of a separate power supply. USB PD will charge your smartphone up to 70% faster than standard 5W charging.
