Pagrindinės savybės

- ✓ Maximum weight capacity: 8 kg
- ✓ Minimum screen size: 25.4 cm (10") Maximum screen size: 81.3 cm (32")
- ✓ Number of displays supported: 4
- ✓ Clamp/Grommet Mounting type: Desk
- ✓ Maximum VESA mount: 100 x 100 mm
- ✓ Manual Height adjustment Tilt adjustment
- ✓ Cable management
- ✓ Steel Black

Aprašymas

The Neomounts DS60-600BL2-2 provides a professional and durable solution for a stacked four-screen configuration. This quadruple monitor arm is constructed with a solid vertical pole and supports four monitors up to 32" with a weight capacity of 8 kg per screen. The full motion technology allows for precise adjustments in tilt, rotation, and swivel for each monitor, ensuring a correct ergonomic posture and optimal workflow efficiency across all displays.

This model is specifically suited for financial institutions, control rooms, and corporate offices where the simultaneous management of vast amounts of data is essential. The robust construction guarantees maximum stability, while the integrated 180° lock mechanism protects the surrounding environment by preventing the arms from making contact with walls or partitions. The design features a subtle phone slot in the base and an integrated cable management system to maintain a professional and organized workspace.

The arm is VESA compatible (75x75 & 100x100 mm) and includes an Easy-release system for the efficient mounting of the screens. The DS60-600BL2-2 comes with both desk clamp and grommet mounting options, making it a versatile high-quality investment for any intensive professional work environment.
