Aprašymas

This charging adapter set makes it possible to continue using an existing notebook power supply with a conventional DC power plug on the new notebook with USB-C. This saves resources and the environment. This saves resources and protects the environment; you don't need to buy a new USB-C power supply. The set includes 7 different connectors/adapters for the most common notebooks. The voltage is converted to USB-C compatible voltages and the connected USB-C device automatically selects the required input voltage between 5V and 20V.
