Aprašymas

The Zyxel EE5301-00/EE3301-00 Series Gateway leverages Wi-Fi 7 (802.11be) for ultra-low latency, peak performance, and superior whole-home coverage. The Series offers either 10G or 2.5G WAN options with a built-in SFP+ cage, seamlessly integrating with copper or fiber infrastructure to handle high bandwidth demands while future-proofing your setup for evolving technology.

Wi-Fi 7 powerhouse: speed, coverage, stability

Designed to the latest Wi-Fi 7 (11be) standard and delivering dual-band speeds up to 7.2 Gbps* for premium, lag-free streaming. With Multi-link Operation (MLO), the Series ensures reliable connectivity, higher data rates, and lower latency. Zero-wait DFS ensures uninterrupted connectivity, while optimized signal sensitivity and broader coverage eliminate dead zones, boosting performance in larger spaces.

Seamless control with an intuitive companion app

Manage your whole-home Mesh Wi-Fi effortlessly with an intuitive app designed for quick, easy setup. From installation to advanced features like parental controls, the app simplifies network management while helping reduce service OPEX. Featuring EasyMesh fully compliant Zyxel MPro Mesh® Solutions**, it ensures a smooth, reliable experience for every connected device.
