Aprašymas

Reliable Power Source

The Unitree Go2 battery is the official, reliable power source at the heart of the Go2 robot. It is designed to deliver optimal performance in everyday applications, offering a capacity of 8000 mAh. This configuration guarantees the robot an estimated operating time of 1-2 hours, which is ideal for standard tasks, test sessions, and everyday exploration.

Intelligent Management and Safety

A key feature of the battery is its advanced, intelligent battery management system. This system constantly monitors the condition of the cells, protecting them from overcharging, excessive discharge, short circuits, and overheating. This not only guarantees high safety of use, but also contributes to the long life and stable operation of the battery over many charging cycles. Its design is perfectly matched to the robot, allowing for easy and quick replacement.
