Aprašymas

AMZCHEF CE-AZ-EM1507-SV Piston Espresso Machine

The AMZCHEF CE-AZ-EM1507-SV is a compact piston espresso machine that lets you easily prepare aromatic espresso or milk-based coffees. The 20-bar pump, combined with a 51-mm portafilter, produces an intense brew with a rich crema, while the 1,350-watt heating system ensures efficient operation. Added to this is an adjustable steam wand that allows you to froth milk for lattes or cappuccinos. The machine lets you brew a single or double shot and also offers a manual mode. All of this gives you nearly unlimited freedom to prepare a variety of coffees—from americano and cappuccino to latte and caramel macchiato. The built-in touchscreen panel makes the machine easy to use.

Espresso with a thick, aromatic crema

Extraction is handled by a professional 20-bar pump system, designed in Italy. The machine is also equipped with a 51-mm portafilter and a high-density shower head. This combination brings out the coffee's intense flavor and aroma and produces a characteristic, rich crema. Thanks to this, you can enjoy a perfectly prepared espresso without leaving home!

Efficient Heating System

The 1350-watt heating system allows the machine to heat up quickly. The machine can handle up to 20 consecutive brews, making it ideal for when you want to prepare several cups one after another. This is a practical solution for gatherings with family or friends when a single serving of coffee just isn't enough.

Convenient Touch Controls

The easy-to-read touch panel lets you operate the coffee maker conveniently without complicated settings. The CE-AZ-EM1507-SV model allows you to prepare a single or double serving, and you also have a manual mode at your disposal. From the same interface, you can also start the steam function and the descaling cycle, ensuring that all the options you need are easily accessible.

Adjust the coffee volume to your preferences

If you have a favorite serving size, you don't have to reset it from scratch every time. The memory function lets you program and save your preferred volume for a single or double espresso, making it easy to get the same result with each subsequent brew. The saved setting remains available until you turn off the machine or unplug it—at which point the memory is reset.

Steam Nozzle for Latte and Cappuccino

The adjustable nozzle produces the steam needed to froth milk, allowing you to tailor its consistency to the beverage you're preparing. You can achieve a silky texture suitable for a latte or a fluffier foam for a cappuccino, and precise control makes it easy to achieve the desired result.

Cup warmer for better results

The top of the machine functions as a cup warmer. You can place a cup on it before brewing to avoid pouring hot espresso into a cold cup. This feature helps maintain the coffee's optimal temperature for longer.

Easier maintenance thanks to automatic descaling

The Auto Clean Cycle feature starts the descaling cycle with the push of a button, simplifying regular maintenance of the coffee machine. In addition, removable components provide easier access to parts that need cleaning, which helps prevent the buildup of coffee grounds and limescale. As a result, keeping the machine clean requires less effort, and essential maintenance tasks can be performed easily on an ongoing basis.

Compact stainless steel design

The coffee maker's slim design makes it easy to find a spot for it on your kitchen countertop. The machine is approximately 12.8 cm wide, 31 cm deep, and 29.5 cm tall, so it takes up very little space. What's more, the machine is made of stainless steel, making it not only very durable but also visually appealing.

Manufacturer	AMZCHEF
Model	CE-AZ-EM1507-SV
Type	Piston-style espresso machine
Material	Stainless steel
Pump pressure	20 bar
Heating system power	1350 W
Group head diameter	51 mm
Voltage	220-240 V~, 50-60 Hz
Controls	Touchscreen
Modes	1-SHOT, 2-SHOT, Manual, Steam
Volume memory function	Yes
Steam wand	Yes, adjustable
Automatic descaling	Yes

Cup warmer	Yes
Water tank capacity	1.2 L
Dimensions (W × D × H)	Approx. 12.8 × 31 × 29.5 cm
