Aprašymas

HiBREW H7B cob espresso machine

The HiBREW H7B is an all-in-one solution for all coffee lovers. Thanks to the built-in grinder with the possibility of precise grinding control, you gain full control over the quality of the brewed beverage. Without the need for additional equipment, you can prepare espresso with intense flavor and aroma. This is an ideal device for both home use and in offices or cafes.

Intuitive touchscreen operation

The color touch screen makes operating the HiBREW H7B extremely simple and intuitive. Clear menus and easy-to-read icons allow you to quickly select the appropriate settings and adjust the coffee parameters to your preferences. The "One-Touch Americano" function allows you to prepare coffee with a single touch for maximum convenience.

Advanced PID system for precise temperature control

The HiBREW H7B features a PID system that stabilizes the temperature during brewing. You can choose from 7 temperature levels, allowing you to perfectly adjust the parameters to suit different bean roasts and preferred coffee flavor. Precise temperature control ensures even extraction and full flavor.

Dual heating system for efficient brewing and frothing

With the dual heating system, you can brew espresso and froth milk at the same time. This solution usually found in professional espresso machines makes latte or cappuccino preparation faster and more efficient. The 2800-watt power generates a powerful stream of steam, ideal for creating smooth, velvety milk foam.

High-quality components and ergonomic design

The coffee maker has a 58-millimeter flask with a wooden handle for comfort. In addition, you have a cup warmer to help keep your coffee at the optimal temperature. A removable 2.8-liter water tank and an easy-to-clean bean container make maintenance quick and hassle-free.

Reliable features and improved details

The HiBREW H7B coffee maker has been designed with attention to detail. A visible steam removal system prevents moisture from accumulating inside the machine, protecting it from corrosion and aging. In turn, an advanced motor cooling system and copper brushes ensure the machine's long-lasting performance and reliability.

Full set of accessories

Included with the HiBREW H7B you get a rich set of accessories, such as a portafilter with wooden handle, single and double coffee baskets, milk jug, stainless steel tamper, whisking mat, digital scale and maintenance tools. This gives you everything you need to brew perfect coffee at home.
