Aprašymas

GMKtec G10 Mini PC with Ryzen 5 3500U, 16GB, and 256GB

The G10 Mini PC is a compact device that packs real power into a small chassis thanks to the AMD Ryzen 5 3500U processor. Equipped with 16 GB of DDR4 memory and a fast 256 GB M.2 2280 SSD, it ensures lightning-fast data access and smooth multitasking. A wide range of ports allows you to connect monitors, a projector, a NAS, or a headset, and support for three 4K@60 Hz displays takes entertainment and productivity to the next level. An advanced cooling system ensures quiet operation, and the integrated AMD Radeon Vega 8 graphics guarantee crisp visuals. It is compatible with Windows 11 Pro, Windows 10, and Linux, and thanks to its lightweight design, the MiniPC G10 is perfect for any workspace.

Power in a Compact Package

At the heart of the device is an energy-efficient AMD Ryzen 5 3500U processor, offering four cores and eight threads with a turbo frequency of up to 3.7 GHz. This allows the G10 to handle demanding office tasks, photo and video editing, while also excelling at multitasking. The integrated 4 MB cache further speeds up processing, ensuring the system responds instantly to your every click.

Memory and Storage Without Compromise

The G10 MiniPC offers 16 GB of RAM (random-access memory). This guarantees smooth performance when running multiple applications simultaneously and working with large files. The built-in 256 GB M.2 2280 SSD provides lightning-fast access to data and quick boot times for the system and programs. Whether you're archiving massive multimedia libraries or creating 3D (three-dimensional) projects—you'll never run out of

space.

A Wealth of Connectors for Versatility

The MiniPC G10 impresses with the number and variety of ports available on its chassis. Two USB 3.2 ports with speeds of 5 Gbps, combined with a USB 2.0 port, enable lightning-fast data transfer and the connection of peripherals. Two Type-C ports—one supporting PD power delivery, the other supporting DisplayPort, data transfer, and device charging—ensure maximum flexibility. With HDMI 2.1 and DisplayPort 1.4, you can easily set up a graphics workstation supporting 4K resolution at 60 Hz, and the 2.5 G Giga LAN port enables an ultra-fast network connection. The chassis also features a CTIA port, a Kensington lock for added security, and a clearly labeled power button.

Ultra HD on Three Screens

Whether you work with multiple monitors or want to take your entertainment to the next level, the MiniPC G10 is up to the challenge. Support for three independent HD (High Definition) displays lets you set up an extensive multi-monitor workstation, and native support for 4K@60 Hz ensures that movies, games, and presentations will impress with their sharpness and smoothness. Simply connect your monitors or TV to set up an impressive multi-screen configuration in just a few moments.

Quiet operation thanks to intelligent cooling

The advanced cooling system in the MiniPC G10 offers exceptionally quiet operation, keeping noise levels below 35 dB. That’s quieter than a whisper in a library, so you can focus on your work or entertainment without being distracted by fan noise. At the same time, the cooling system efficiently dissipates heat, allowing the processor and Radeon Vega 8 graphics chip (clocked up to 1,200 MHz) to operate at full performance without worrying about overheating.

Full System Compatibility

The MiniPC G10 works equally well with Windows 11 Pro, Windows 10, and Linux. Whether you prioritize stability and Microsoft’s familiar interface or prefer the openness and flexibility of other operating systems, the MiniPC G10 provides reliable support for all your key applications.

Compact Design, Big Capabilities

With a volume of just 0.42 liters and a minimalist, elegant finish, the MiniPC G10 fits perfectly on any desk, behind a monitor, or while traveling. It’s the ideal solution for professionals, content creators, and tech enthusiasts who value maximum performance with minimal space requirements. It will help keep your workspace organized and increase your mobility.

Manufacturer	GMK
Model	G10
Dimensions	103 x 98 x 42 mm
Case Material	Plastic
Weight	284 g
Processor	AMD Ryzen™ 5 3500U
Max. clock speed	3.7 GHz
Power consumption	35 W
Memory	DDR4 2400
Memory capacity	16 GB (DDR)
EMMC	No

SSD	M.2 2280 256 GB (pre-installed), supports up to 8 TB / M.2 2280 (expansion); supports 8 TB / max. total supported capacity 8 TB x 2 = 16 TB
2.5" HDD/SSD Support	No
TF Card Reader	No
Real-Time Clock	Supported
BIOS Support	Yes
TPM	TPM 2.0 Support
Video Outputs	HDMI, DP, Type-C (DP/DATA/PD)
Status indicator	Power status LED
Wi-Fi	Wi-Fi 5
Interface type	PCIe
Bluetooth	Bluetooth 5.0
Interface	Bluetooth, USB 2.0
Built-in Wi-Fi	Yes (via PCIe)
Built-in Bluetooth	Yes (via USB 2.0)
LAN	1 x Gigabit LAN (2500M / 1000M / 100M / 10M)
USB 2.0	1x USB-A 2.0
USB 3.2	2x USB-A 3.2
External Storage Expansion	No
Audio/Video Outputs	1x HDMI 2.1
Ethernet Ports	1x RJ45
Data Transfer	Yes
Buttons	Power button x1
DC IN	Yes
Audio Input/Output	1x 3.5 mm headphone jack (input/output)
Antennas	Wi-Fi, Bluetooth
Operating System	Windows 11 Pro pre-installed, supports Linux
Operating temperature	0°C to 40°C
Storage temperature	N/A
Humidity	N/A
Power supply	Type-C 19V/3.42A 64.98W
IR Remote Control	No
VESA	Yes
Radio Bands	Wi-Fi 2.4 GHz / Wi-Fi 5 GHz / Bluetooth
Max. Transmission Power	18 dBm / 17 dBm / 4 dBm
